WORK EXPERIENCE

Product Owner

International Health Services Argentina

09/2022 - Present

Buenos Aires

Achievements/Tasks

- Product Backlog Management with JIRA and Azure Devops
- Team Leadership
- Understanding of market and customer needs

Data Scientist Jr

International Health Services Argentina

12/2021 - 09/2022

Buenos Aires

Achievements/Tasks

- Design and implementation of machine-learning models
- Development and deployment of APIs using Flask
- Database modeling

Research Associate

Universidad de Buenos Aires

04/2020 - 07/2023

Buenos Aires

Achievements/Tasks

- EEG data cleaning and organization in BIDS format (ETL)
- EEG data preprocessing (filtering, epoching, ICA)
- Statistical Analysis with Python
- Results visualization with Python and R packages

Bioengineer Intern

Hospital Francisco Santojanni

02/2021 - 05/2021

Buenos Aires

Achievements/Tasks

- Medical equipment inventory and database management with Excel

EDUCATION

Bioengineering

Instituto Tecnológico de Buenos Aires

03/2016 - 07/2023

GPA 8.6/10

SKILLS

Python

SQL

PostgreSQL

Git

JIRA

Azure Devops

Data Studio

Flask

Matplotlib

Seaborn

Plotly

Pandas

Numpy

Scikit-Learn

ACHIEVEMENTS

Research and Technology Development Initiation Competition (2019)

Designed Hand Bone Conduction Bracelet and won First Place. Presented the work at the Bioengineering Congress held in Uruguay in 2020.

Certificate of Merit in English (2014)

Issued by Liceo Cultural Británico for obtaining the best average during the six year long English course

LANGUAGES

Spanish

Native or Bilingual Proficiency

English

Full Professional Proficiency

INTERESTS

Machine Learning

Data Analysis

Artificial Intelligence

Software Development

Continuous Improvement
